OBJECTIVE

To secure the System Administrator position at Advantage Group International, applying hands-on Microsoft 365, Windows Server, and desktop support experience — together with a strong interest in AI-enabled IT operations — to keep corporate systems secure, reliable, and continuously improving.

HIGHLIGHTS OF QUALIFICATIONS

- Over 1 year of desktop support and junior network administration experience, documenting and resolving 25+ technical issues with 30% faster resolution and 98% task accuracy.
- Hands-on Microsoft 365 administration: user/group provisioning via the Microsoft 365 Admin Center, Teams, SharePoint Online, Exchange Online, Intune/MDM device policies, Conditional Access, and role-based access control (RBAC).
- Practical Windows Server 2019 skills: Active Directory Domain Services, Group Policy, DNS, DHCP, WSUS patch management, Hyper-V Replica disaster recovery, iSCSI storage, and failover clustering.
- CompTIA A+ ce certified (June 2026); Microsoft 365 Certified: Administrator Expert (MS-102), Microsoft Certified: Information Security Administrator Associate (SC-401). Microsoft 365 Certified: AI Services Administrator Associate (beta) (AB-650), Designing Microsoft Azure Infrastructure Solutions (AZ-305), AWS Certified Solution Architect – Associate (SAA-C03).
- Five years of leadership experience heading a Risk Management and Compliance Unit — developing and enforcing security, data-retention, and regulatory policies and delivering organization-wide training.
- Early adopter of AI tooling for technical documentation, troubleshooting, and workflow automation, with strong communication, planning, and knowledge-transfer skills.

TECHNICAL SKILLS

Microsoft 365 & Identity: Microsoft 365 Admin Center, Outlook, OneDrive, Microsoft Entra ID (Azure AD), Google Workspace

Infrastructure & Networking: Windows Server 2019, TCP/IP, LAN/WAN, client/server architecture, network troubleshooting, NTFS volumes, Hyper-V virtualization

Cloud Platforms: Azure fundamentals (identity, authentication, RBAC), AWS fundamentals, cloud migration concepts, Service Health monitoring & post-incident review (PIR) processes

Automation & AI Tooling: PowerShell, Microsoft Power Platform & Copilot (fundamentals), Git/GitHub, HTML/CSS

Service & Operations: Help desk & ticketing systems, incident documentation, IT asset management, routine maintenance & backups, ERP systems (SAP, Business Vision, SPIRE), Smartsheet & data reporting

TECHNICAL PROJECTS — GEORGE BROWN POLYTECHNIC (2026)

Microsoft 365 Enterprise Administration Project | Team of 5

- Designed a simulated Microsoft 365 enterprise environment: user/group provisioning, permission and password administration via the Microsoft 365 Admin Center.
- Configured Intune/MDM device policies and implemented Conditional Access, RBAC, and security best practices.
- Performed cloud migration exercises (file storage, collaboration, productivity apps) and explored Power Platform and AI-assisted tooling, producing full technical documentation.

Enterprise Windows Server Lab — Multi-VM Domain Environment | Individual project

- Built a three-VM Windows Server 2019 domain on Hyper-V: AD DS with domain controller promotion, DHCP, DNS conditional forwarding, and domain-level Group Policy.
- Configured iSCSI shared storage, bidirectional Hyper-V Replica disaster recovery, WSUS patching enforced via GPO, and a two-node failover cluster.
- Produced professional, screenshot-driven runbook documentation to a strict formatting standard.

Professional Portfolio Website | GitHub Pages

- Built and deployed a responsive site (HTML/CSS) via Git and GitHub Pages — live at olalekan-along.github.io.

EDUCATION / CERTIFICATIONS

CompTIA A+ ce Certification | CompTIA (verified on Credly) June 2026

Postgraduate Certificate, Cloud Computing | George Brown Polytechnic — Toronto, Ontario March 2026 – Apr 2027

- Cloud computing and system/network administration; graduating with Distinction.

Certifications in progress

- Microsoft 365 Certified: Administrator Expert (MS-102), Microsoft Certified: Information Security Administrator Associate (SC-401). Microsoft 365 Certified: AI Services Administrator Associate (beta) (AB-650), Designing Microsoft Azure Infrastructure Solutions (AZ-305), AWS Certified Solution Architect – Associate (SAA-C03).

Bachelor of Science, Actuarial Science & Statistics | University of Lagos — Lagos, Nigeria 2010

- Graduated with Distinction — 4.5/5.0 GPA; Term Dean's List (4 semesters).

PROFESSIONAL EXPERIENCE

Desktop Support / Junior Network Administrator | CrossWorld — Toronto, Ontario Oct 2024 – Feb 2026

- Provided front-line technical support for hardware and software issues across the organization, ensuring minimal downtime for end users.
- Documented and resolved 25+ technical support issues, contributing to 30% faster issue resolution and measurably improved user satisfaction.
- Managed user accounts and permissions in Active Directory — provisioning, modifying, and deprovisioning access — while enhancing security protocols.
- Diagnosed network connectivity problems and implemented solutions that improved overall system reliability.
- Installed, configured, and maintained desktop systems and peripherals, optimizing workstation performance and ensuring compliance with company standards.
- Streamlined desktop support operations by implementing an efficient ticketing system and structured task prioritization.
- Achieved 98% task accuracy across system documentation and troubleshooting requests.

Field Inventory Specialist | Amico Clinical Solutions — Richmond Hill, Ontario Feb 2021 – Sep 2024

- Implemented systematic inventory control measures to guarantee accurate stock counts and efficient replenishment schedules.
- Analysed inventory levels through regular audits to ensure alignment with company compliance requirements.
- Utilized inventory management software to accurately track shipments and optimize order- fulfilment workflows.
- Developed engaging training content for new hires, improving onboarding experiences and ensuring effective knowledge transfer.
- Engaged with cross-functional teams to identify and implement improvements in supply chain operations.
- Analysed existing inventory processes and introduced enhancements that significantly improved record accuracy.

Risk Manager — Head, Risk Management & Compliance Unit | STACO Insurance Plc — Lagos, Nigeria Jun 2015 – Nov 2020

- Led the Risk Management and Compliance Unit, overseeing enterprise risk assessments and ensuring organization-wide adherence to security, data-retention, and regulatory requirements.
- Developed, implemented, and enforced security, records-retention, and regulatory compliance policies, procedures, and internal controls across business units, safeguarding data integrity and confidentiality.
- Monitored compliance with regulatory and internal policy standards, reporting metrics, audit findings, and recommendations to senior leadership to support executive decision-making.
- Coordinated internal and external audit activities, tracking remediation of findings through to closure.
- Delivered training on security awareness, retention obligations, and regulatory compliance across the organization, building a culture of accountability and knowledge transfer.

INTERESTS

- Home lab experimentation with virtualization and cloud technologies; personal development and continuous learning.
Languages: English (Full Professional Proficiency).
